FOUNDRY TRADE JOURNAL

INDEX TO VOLUME 153 – JULY TO DECEMBER, 1982

A

Abrasives Company extends Back up service, 762
Aluminium-alloy melts, New Equipment for Routine Determination of Hydrogen Gas in, 249
Alloy Steel Foundry, inhouse Expertise used in re-equipping, 590
Aluminium Castings Production in Europe, USA and Japan, 71
AFS hosts 49th International Foundry Congress in Chicago, 108
An Anatomy of Management Buyouts, 319
Ancient Craft of Casting Lead, the, 401
APV Paramount, Centrifugal Casting at, 443
Arcstract Air-carbon Arc Extraction System, Environmental Assessment of, 25
Are the Survivors surviving, 321
Automotive Patterns emerge in a new Guise, 251

B

Bale-out Furnace, BNF tests Immersion-heated, 561
Baker Perkins joins Loughborough in Teaching Scheme, 353
Bellfounder Extraordinary, Royal Eijsbouts BV—a Dutch, 661
Bellfounding Museum: Ringing the Changes in Holland, 670
Blast-cleaning, getting the Best from, 627
Bleak Outlook for Britain's Ironfounders, 589
Board sets up NDT Certification Scheme, 406
BMM Weston—100 Years of Progress, 182
BNF issues 1981 Annual Report, 508
BNF tests Immersion-heated Bale-out Furnace, 561
BSC to combine Heavy Forgings and Castings Business, JFB and, 433

C

Cast Irons, Recent Advances in the Non-destructive Evaluation of, 242
Casting lead, The Ancient Craft of, 401
Castings at Farnborough, 82, 510
Centrifugal Casting at APV Paramount, 443
Centrifugal Casting: The Noble Process, 455
Chesterfield College of Technology, Foundry Training at, 39
Computers and Foundry Management, 314
Cronite invest in Lost-wax, 107
Crucible Firm spans the Generations, 37

D

DoI Support for PERA Robot Workshop, 223
Developments in the Metallurgy of Steel Castings, 380

E

Economical Castings Production, 185
Environmental Assessment of the Arcstract Air-carbon Arc Extraction System, 25
European Castings and Forgings Exhibition, 507, 852
European Castings and Forgings Exhibition—1982 Preview, 463

F

Ferrous and Non-ferrous Ingot and Pig-iron, 585
Ferrous Scrap in the USA—Potential for Conservation, Recycling, 809
Fettling Costs, some Measures to reduce, 11
Fettling of Large Castings in Special Purpose Booths, 31
Founding Depicted in Stained Glass, 432
Foundry Coke from the Private Sector, 855
Foundry Division becomes Autonomous, 4
Foundry Management, Computers and, 314
Foundry Pig-iron—Fifty Years of Merchanting, 567
Foundry Services Limited—Fifty Years of Successful Innovation, 75
Foundry Training at Chesterfield College of Technology, 39
Furnaces 82, Melting Units Strongly represented at, 351

G

Gas Turbine Engines, Precision Castings for, 175
Gating Systems incorporating Swirl Chambers and their use in Steelfounding, 520
Getting the Best from Blast-cleaning, 627
Guest & Chrimes Limited—a Foundry of the Eighties, 95

H

HSE adopt new Isocyanate Control, 776
Heat Treatment Facility at TI Glow-Worm, New, 851
Heat Treatment of Aluminium Alloy Sand and Gravity Diecastings, The Practical, 841
Heat Treatment, The Production of S.-g Iron by, 848
Historic Metallurgy Conference featured Leicestershire Iron Industry, 865
Holland and Belgium, West Bromwich Students visit Foundries in, 504
Holland, ringing the Changes in, 670
Hydrogen Gas in Aluminium-alloy Melts, New Equipment for Routine Determination of, 249

I

Impact Treatment Papers, Call for, 620
Induction Melting and Holding Equipment, Parameters to be considered in the Selection of, 393
Industrial Noise Control—An Important Consideration in the Foundry Industry, 803
IBF: Works Visits, 458; 529; IBF News, 200; 623; 695
IBF in Scotland, The, 731
Into a Quality Circle, 247
Ironfounders, Bleak Outlook for Britain's, 589
Isocyanate Control, HSE adopt New, 776
Is the Scottish Foundry Industry surviving?, 699

J

Japan, Aluminium Castings Production in Europe, USA and, 71
JFB and BSC to combine Heavy Castings and Forgings Businesses, 433

L

Lazards plan Rationalisation of Steelcastings General Sector, 435
Loughborough in Teaching Scheme, Baker Perkins joins, 353

M

Management Buy-outs, An Anatomy of, 319
Management Buy-out at Stainless Steel Plant, 621
Management, Computers and Foundry, 314
Melting and Holding Equipment, Parameters to be considered in the Selection of Induction, 393
Melting Units Strongly represented at Furnaces 82, 351
Metallurgy of Steel Castings, Developments in, 380
Metcon—a UK Organisation with roots in Scotland, 726
Microcomputer-aided Foundry Methods Engineering, 647
Mould Identification System aids Quality Control and Productivity, 737

N

New Building arrests Deterioration of Abraham Darby Blast-furnace, 836
New Equipment for the Routine Determination of Hydrogen Gas in Aluminium Alloy Melts, 249

N

New Building arrests Deterioration of Abraham Darby Blast-furnace, 836
New Equipment for the Routine Determination of Hydrogen Gas in Aluminium Alloy Melts, 249

New Heat Treatment Facility at TI Glow-Worm, 851
Noble Process, The, 455
Noise Control—an Important Consideration in the Foundry Industry, Industrial, 803
Noise Problems, A Practical Approach to solving, 795
No Jobs Upturn in Heavy Engineering Sector, 224
NDT Certification Scheme, Board sets up, 406
Non-destructive Evaluation of Cast Irons, Recent Advances in, 242
Non-ferrous Ingot and Pig-iron, Ferrous and, 586
Norwegian All-electric Pig-iron Technology produces Low Phosphorus Levels, 571

P
Parameters to be considered in the Selection of Induction Melting and Holding Equipment, 393
Patent Abstracts, 112
PERA Robot Workshop, DoI Support for, 223
Permanent-moulded S.-g Castings on Display at European Castings & Forgings Exhibition, 220
Pig-iron, Ferrous and Non-ferrous Ingot and, 585
Pig-iron—Fifty Years of Merchanting, Foundry, 567
Pig-iron Technology produces Low Phosphorus Levels, Norwegian All-electric, 571
Practical Approach to solving Noise Problems, A, 795
Practical Heat Treatment of Aluminium Alloy Sand and Gravity Diecastings, the, 841
Precision Castings for Turbine Gas Engines, 175
Production of S.-g. Iron by Heat Treatment, The, 848
Progress Foundry moves into S.-g and Alloy -iron Market, 106
Purimachos celebrates Centenary Year, 68
Purpose-built Feeder/Hopper boosts Metal Sorting Capacity, 815

Q
Qualcast Derby—a £14 million Investment in the Future of British Founding, 283
Quality Circle, Into a, 247
Quality Control in Foundries, A Visual Approach to, 234

R
Recent Developments at Saunders Foundry Limited, 789
Recycling Ferrous Scrap in the USA—Potential for Conservation, 809
Rejects Audit, The, 535
Reject Control, Total, 313
Ringing the Changes in Holland, 670
RMI (Bingley) Limited looks to the Future, 147
RMI takes Meehanite Licence, 140
Royal Eijsbouts B.V.—a Dutch Bellfounder Extraordinary, 661

S
Saunders Foundry Limited, Recent Developments at, 789
Scotland, IBF in, 731
Scotland, Metcon a UK Organisation with Roots in, 726
Scotland, Training in the Foundry Industry in, 724
Scottish Foundry Industry surviving?, Is the, 669
Scottish Foundry wins Ban on Taiwan Copies, 734
Scottish supplier is World Leader in Specialist Ceramics Production, 734
Scottish Ironfounding in the Eighteenth and Nineteenth Centuries, 714
Scrap Industry in the Doldrums, 812
Scrap in the USA—Potential for Conservation, Recycling Ferrous, 809
Some Measures to reduce Fettling Costs, 11
S.-g and Alloy-iron Market, Progress Foundry moves into, 106
S.-g. Iron by Heat Treatment, The Production of, 848
Stainless Steel Plant, Management Buyout at, 621
Steel Castings, Developments in the Metallurgy of, 380
Steel Castings General Sector, Lazards plan Rationalisation of, 435
SCRATA hold 7th Annual Conference, 41
SCRATA News, 779
Steel Founding, Gating Systems incorporating Swirl Chambers and their Use in, 520
Steel Foundry, In-house Expertise used in re-equipping Alloy, 590
Sterling orders Ajax Furnace, 471
Superalloy Quality, Advanced Equipment and Techniques achieve Consistent, 575
Swirl Chambers and their use in Steel Founding, Gating Systems incorporating, 520

T
Taiwan Copies, Scottish Foundry wins Ban on, 734
TI Glow-Worm, New Heat Treatment Facility at, 851
Total Reject Control, 313
Training at Chesterfield College, Foundry, 39
Training in the Foundry Industry in Scotland, 724

U
USA—Potential for Conservation, Recycling Ferrous Scrap in, 809

V
Visual Approach to Quality Control in Foundries, 234

W
West Bromwich Student wins Patternmaking Award, 560
Wrought-iron Works to be opened at Ironbridge, 69

X
X-ray Fluoroscopic Inspection of Castings, 227

Diecasting Technology Supplement

Casting Zinc Foundry Alloys in Graphite Moulds, 867
Designers and Diecasters co-operate to reduce Costs, 482
Development in Zinc Diecasting, 327
Diecasting in Finland—a Profile of Specialvalimo J. Pap Ky, 599
Diecasting Magnesium—Some Practical Notes, 599
Innovation in Diemaking creates New Marketing Opportunities at Kenrick Hardware, 477
Pressure Diecasting Seminar discusses Developmentsin Technology, 193
Thermal Variables and Their Control in Diecasting, 745
